point-of-sale e-commerce software

## BIZTRACKER INFINITY POINT OF SALE SOFTWARE

### DUTY FREE SHOPPING & FOREIGN CURRENCY TRANSACTIONS

**Biztracker Infinity** allows you to tender your customers purchases in Multiple Currencies and convert from your base currency at today rates. You can have an unlimited number of currencies available to choose from to tender your transaction. In addition your base inventory can be kept in your local currency and converted when the data is transferred to Home Office as required by some countries.

Duty Free transactions have never been easier than with **Biztracker Infinity Point of Sale**. We collect the data and print the necessary forms for your customers and for you to report to your local government on Duty Free Transactions. As requirements change with local governments these forms can be customized to meet their current requirements easily.
